SOURCE EVALUATIONS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE.

50X1-HUM

1. Epleny is located approximately 18 kilometers north of Veszprem, on highway No. 82 between Veszprem and Győr. A liquid fuel depot is located approximately three kilometers south of Epleny on the western side of highway No. 82.
2. The depot occupies an area of approximately 200 x 400 meters which is enclosed by a wall surmounted by barbed wire. There are approximately 12 fuel tanks, which are half underground. The tanks are scarcely visible from the road because they are protected by embankments composed of bricks and earth and consequently their dimensions could not be determined. However, at the top their approximate diameter is four meters.
3. There are five or six small one-story buildings in the enclosure.
4. A spur line connects the fuel depot with the Veszprem - Jutas - Zirc railroad line.
5. The fuel depot was guarded by one AVH sentry and one sentry belonging to the Hungarian infantry. There were two small watchtowers beside highway No. 82. No movement was observed inside the enclosure.
